# Ownership...

**Tel Tech Networks, Inc.** has been in operation over 7 years and is a family company. It is owned by four brothers, all of whom have a vast and diverse background in communications, spanning **Enterprise Network & Security, Outside Plant, Telephony Services, and Wireless Technology.** Their combined experience exceeds 100 years of knowledge and commitment to customer requirements. The management team has one major goal in providing superior service and quality to each one of its customers every time the opportunity is given.

# Our Customer Services...

**Enterprise Network & Security:** Design, Installation and Service of Voice & Data, Security, and Access Control Systems; Fiber Design Installation; and Maintenance

**Outside Plant:** Design, Installation, and Service of Fiber, Fiber Fusion Splicing & High-pair Count Copper Cabling; Boring, Trenching, & Saw-cutting; Aerial; and Emergency Restoration Services

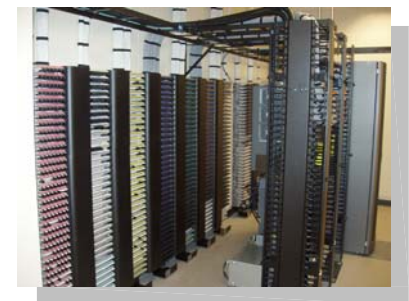

**Telephony:** Consulting, Installation, and Service

**Wireless:** Design, Installation, Maintenance, and Commissioning of everyday wireless requirements and Cellular-based Neutral Host & Carrier In-building Solutions

# Customer Commitment...

**Tel Tech Networks, Inc.** has two assets at its disposal, its **Customers** and its **Employees**. Without both, the company would cease to exist. To maintain growth year after year, **Tel Tech Networks** concentrates on strengthening the knowledge of its employees and its overall customer relationships.

It is **Tel Tech Networks** belief that competent people breed professionalism and quality. Thus, resulting in customers who receive the best care and overall service. Our employees care about how they, as well as the company, are perceived.

With our customers' importance we can't afford to take chances, therefore we dedicate 1.5% of our annual revenues to education and process renewal!

Our world is rapidly changing and becoming increasingly more complex. You need to know the company selected, to do your work, knows what they are doing. It's our intent to make sure everything we do keeps pace with technology earning your respect the old fashioned way!
